

SEMINAR SERIES

Introduction to REDCap Workshop

Research Electronic Data Capture Platform

This workshop is targeted towards clinician researchers at any level looking for an excellent introduction to utilise the secure and intuitive research data collection tool - REDCap.

Topic highlights:

- ❖ Developing qualitative surveys, longitudinal studies, audits and RCTs
- ❖ Multisite vs single site studies
- ❖ Randomisation Modules
- ❖ Exporting REDCap data to statistical programs
- ❖ Data Quality Module
- ❖ Database Dictionary upload vs Online Designer
- ❖ User Rights and User Access Management
- ❖ Using REDCap in the academic and clinical setting
